19-Inch Drawer for Cherry Keyboard

The 1HE/19" drawer specially designed
to take up a Cherry G84-4400 keyboard

Description

The KKE-19" drawer together with the Cherry keyboard G84-4400 makes a perfect team.

- The keyboad is hidden behind a waterproof flap. When this flap is opened the keyboard slides out and is locked in place, when it has completely left the housing.
- The heighth of the front of the drawer is 1HE
- The front face, as well as the entire mechanism are metal and therefore very sturdy and durable, even under heavy use.
- The sealed front makes this drawer ideal even for rough environments. The keyboard protector that is available as an accessory, helps to protect the face of the keyboard against dust and liquids.

Two in one:

- The keyboard offers not only a compact keyboard layout with keys with pattented Cherry cross-point gold switches, but also a small but simple to use 16mm Trackball. This makes this the ideal keyboard, for all tight places where no other keyboards can fit.
