

## Cherry G84-4700 Programmable Keypad

Slim numeric keypad for notebooks.

### Description

The ultra flat number block G84-4700 is suitable for the data input at the bank area, for the numeric input at control areas or for the supplement of a Notebook keyboard. By the compact [Design](#) it can be put in almost each Notebook case.

#### Features

- Equally suitable for left- and right-handed users
- The 4 free programmable keys in the upper key row can be labeled individually
- The key caps are relegendable
- Thus you can always store recurring combinations of keys for a software and fast operate
- In the design the number block was adapted to the keyboard G84-4100. (see catalog cross references down below)
