

GTL-035

Programmable Keypad with 7x5 keys,
with clear caps for customer-specific
layouts.

**Description**

This small industrial keyboard is suitable for fast creation of specific layouts. The layout can be created with the help of a small utility program on any PC with a printer. The keyboard stores up to 70 macros, where each macro can be 63 characters long. Programming is simple. After downloading to the keyboard the new macros are available immediately.

Applications:

POS, industrial, Banking, video editing and others.
