

GTL-105-IP65 Front

IP65 water and dust resistant standard PC keyboard at an excellent price.

**Description****Applications:**

These keyboards can be used in virtually all fields, where a sealed keyboard is needed such as industry, medical and even standard office environments to protect against coffee and ashes.

Characteristics:

- The basis of this keyboard is that of a standard keyboard. It therefore offers the comfort and ergonomics of a standard office keyboard.
- The keycaps are laser-engraved to prevent the wearing off of the inscriptions.
- Cables with both AT/DIN5 and [PS/2](#) interfaces are available.
- The Windows keys allow the user to call up various special Windows functions.
- A keyboard cover is available to protect the keyboard even more against dirt. The cover can be cleaned with most household, medical and industrial cleaners.
- Further language layouts are available on demand.

Specification
