

**GTL-60 Series**

Programmable industrial keyboard with 60 relegendarable keys and optionally integrated magnetic card reader

KP1002

KP1003 (Ausführungsbeispiel)

**Description**

High-quality keyboard from the area of the POS keyboards. This keyboard is characterised by the following features:

- In one layer the keyboard is freely programmable. Each key can be occupied with up to 15 key codes. That is why it is possible to release a series of key combinations just by pressing one key.
- Three different key caps are optionally available in different sizes: simple, double and fourfold. They can be individually labeled by the user. Different layouts thus become realizable.
- Key log in order to protect the keyboard against unauthorized use.
- An additional AT interface makes it possible to connect a second keyboard. For example you can use a standard keyboard at the same time with the GTL series.
- A magnetic card reader can optionally be integrated with either one, two or three tracks.
- Durable Cherry MX-switch.

**Specification****Mechanical data**

Dimensions:	215 x 245 x 65 mm
Weight:	0,95 kg
Housing:	Plastic
Color:	computer grey
Cable Length:	150 cm

**Keys**

Number of Keys:	60
Keyboard Layout:	free
Operational Life:	20 mio. keystrokes min.

**Electric Data**

Interface:	<a href="#">PS/2</a> & AT-through put
Operating Voltage:	5 V
Operating Current:	40 mA

---

**Environment**

Operating Temperature: from 0 °C to +50 °C

Storage Temperature: from -20 °C to +70 °C

---
