

Kinesis Ergo Elan

The keyboard for users who demand quality

Description

At last the Kinesis Ergo Elan keyboard is available in Germany with a German layout. Others are available on demand.

The great thing about this keyboard is its revolutionary shape without changing the arrangement of the keys.

The palms of the hand can be rested on the area in front of the "key wells" in order to take much strain away from the shoulders.

In this Position the fingers automatically rest on the starting row, coloured in blue for better recognition.

The thumbs automatically rest on the backspace and space keys.

The Cherry MX keyswitches have a lifespan of over 50 million keystrokes and offer a light tactile feedback. The keyboard itself has a slight audible click.

All keys are programmable and can be programmed with up to 46 keystrokes. Therefore passwords, eMail addresses, etc. can be stored for repeated use.

Specification

Mechanical data

Housing:	Table-top housing
Housing:	Plastic ABS
Degree of Protection:	IP40
Color:	computer grey
Dimensions:	420 x 210 x 65 mm
Cable Length:	180 cm

Keys

Key Technology:	Cherry MX-Key
Number of Keys:	86
Operational Life:	50 mio. keystrokes min.
Stroke Force:	0,6 ± 0,2 N
Stroke Travel:	3,8 ± 0,4 mm
Key Legend:	silk screen

Electric Data

Interface: AT (with adapter [PS/2](#))

Operating Voltage: 5 V

Environment

Operating Temperature: from -10 °C to 70 °C

Storage Temperature: from -40 °C to 70 °C

Humidity: 5 - 95 % RH (no condensation)

Order No.	Article
