

## KSA-102-PS2

Compact keyboard with trackball

### Description

This keyboard with integrated [Trackball](#) corresponds to all current [Ergonomic](#) standards in its Design. The keyboard is due to extremely compact extents ideally applicable if the workstation is particularly limited.

#### Application-fields:

- With its height (1HE) it is the ideal keyboard for p.e. rackmountable applications with 19"-drawers.

#### Speciales:

- The optical trackball offers most accurate control possibilities and is not as sensitive against p.e. dust as conventional versions.
- Keyswitches with gold crosspoint contacts grantee particularly reliable transfers.
- This keyboard has a extremely long life expectancy. More than 50 million operations indicate an above average life span.
