

KSC language keyboard

The language keyboard is available with different country-specific keyboard layouts.

Description

Multicultural input

Applications:

As foreign language keyboards they are mostly used by translators, international businesses and they are often part of PC systems that are to be exported.

- Additionally to the main layout for German or US the symbols of the second language are shown on the keys.
- The language of the keyboard can easily be switched over by the system manager of your computer.
- The following languages are available:

DE - German
AR- Arabian
BE - Belgian
CH - Swiss
DK - Danish
ES - Spanish
EU - US-english
FR - French
GB - UK-english
IT - Italian
NL - Dutch
NO - Norwegian
PL - Polish
RB - US-English/Cyrillic
RD - German/Cyrillic
SF - Swedish/Finnish
SL - Slovenian
TS - Czech
