

KSS-19 Compact Keyboard Drawer 19" 2HE

Installation depth of at least 134 mm.

Description

This flat, retractable keyboard drawer KSS-19 is especially designed for 19" rack mount systems and for control consoles with an installation depth of at least 134 mm.

The patented locking system prevents the drawer from being closed unintentionally through integrated magnetic tracks on the front and back. Furthermore it also prevents the keyboard against fluids and dust particles.

The integrated stainless steel keyboard has a 25 mm [Trackball](#), optionally as stainless steel or phenol ball available.

The keyboard drawer can be ordered as lockable version, is easy to mount and water- and dustproof to DIN IP 65 no matter if open or closed.

The [Ergonomic](#) stainless steel keyboard comes with [PS/2](#) or [USB](#) interface and has an integrated stainless steel or phenol ball.

Features:

- 19" 2HE rack
- Installation depth of at least 134 mm
- Lockable keyboard drawer, optionally with lock
- The integrated slide bars prevents a shifting of the keyboard
- Easy to mount and connect to an IPC
- Stainless steel keyboard with tactile feedback
- With USB oder PS/2 interface
