

## KVC-72 Internet-Terminal Keyboard

Web Keyboard with integrated Trackball

### Description

This robust stainless steel keyboard is especially designed as web keyboard with 72 keys. The keyboard has Windows or Function keys. But it covers all the keys needed to easily surf within the Web, like <http://>, [www.](http://www.), [.com](http://.com), [.net](http://.net), [@](mailto:), etc.

The keycaps made of stainless steel are non removable and fireproof due to the integrated ABS plastic layer. It comes up with a [USB](#) interface.

### Highlights

- Prestigious Design
- Vandal resistant due to non removable stainless steel key caps
- Fireproofed ABS Layer for best tactile keystroke
- Waterproofed to IP65 / NEMA 6
- Laser engraved key caps; customized solutions optional
- Front panel version with integrated 38 mm plastic [Trackball](#)
- With USB interface
