KVC-86 Compact Stainless Steel Frontplate with USB

KVC-K86-F Freely programmable Input Device in IP 65

Description

This compact Stainless Steel frontplate is especially designed for kiosk and public environmental areas as well as for applications with no need for a special mouse device. The keycaps made of stainless steel are non removable and fireproof due to the integrated ABS plastic layer.

Each key of the keyboard is free programmble, i.e. the user is able to customize his personal input device.

The dimensions of the keyboard are 337.4 x 160.9 x 22 mm. Even if there is not enough space for an input device, the keyboard still offers the user a comfortable data input.

Advantages and Highlights

- Prestigious design
- Especially useful for applications in public areas, kiosk or POS applications
- Vandal resistant due to non removable stainless steel key caps
- Fireproofed ABS Layer for best tactile keystroke
- Waterproofed to IP65 / NEMA 6
- Full travel keys with 2.2 mm stroke
- Laser engraved key caps; customized solutions optional
- Any language via programmable controller
- With USB interface

Specification

Mechanical data

Housing:	Front-panel mounted with integrated studs
Housing:	High-Grade Steel
Degree of Protection:	IP65
Dimensions:	337,4 x 160,9 x 22 mm

Keys

Key Technology:	membrane
Number of Keys:	86
Keyboard Layout:	German or US
Key Legend:	Laser

Electric Data

Interface:	USB

Environment

Operating Temperature:	from 0 °C to 55 °C
Storage Temperature:	from -20 °C to 70 °C

Quality

Live time:	about 10 million key strokes

Order No.	Article	
KV1281	KVC-K86-F-USB-Ger	German, USB
KV1285	KVC-K86-F-USB-US	US, USB
