

Neu! KVS-105 with integrated
Joystick

Elegant stainless steel keyboard with
105 keys and integrated touchpad.

Description

Applications:

This keyboard is suited for public areas prone to vandalism as well as for areas where hygiene is a must such as kiosks, points of information, industry and medical applications.

Special characteristics

The integrated joystick is an ideal cursor control, as it is completely sealed against dust and liquids.

This layout contains the Windows keys used by modern operating systems.

The good tactile feedback of the keys makes the keyboard comfortable to use.

The keyboard is dust and waterproof to [IP65](#) / [NEMA4](#)

These keyboards are available in various language layouts. Customer-specific layouts are available on request.
