**Neu!** **KVS-12 Stainless Steel PinPad with 12 Keys**

Step into the light: A PinPad with a Night Glow

Description

The background lighting PinPad is above all for safer data input in the dark or in darkened environment.

Applications:

The PinPad is waterproof according to IP 65 and is especially designed for safety environments, e.g. security relevant applications such as access code systems or gate drive mechanisms as well as for POS areas.

The PinPad has 12 keys and comes up with a matrix or [PS/2](#) interface.

Details:

- Module with 12 keys
- Vandalresistant stainless steel front
- Short travel keys with backlighting
- As matrix or with PS/2 interface
- Waterproof according to IP 65

Specification

Mechanical data

Housing:	High-Grade Steel
Degree of Protection:	IP65 on front

Keys

Key Technology:	short-stroke keys
Number of Keys:	12
Actuation Force:	3 N
Stroke Travel:	ca. 0,4 mm
Key Legend:	Laser

Electric Data

Interface: Matrix

Environment

Operating Temperature: from 0 °C to 50 °C

Quality

Live time: about 3 million key strokes
