

KMS-16

Vandal resistant numpad with 16 keys.

**Description****Applications:**

This elegant front panel made of brushed high-grade steel is at the same time vandalism proof and weather resistant (degree of protection: IP65). Shock and vibration-fixed housing is very durable.

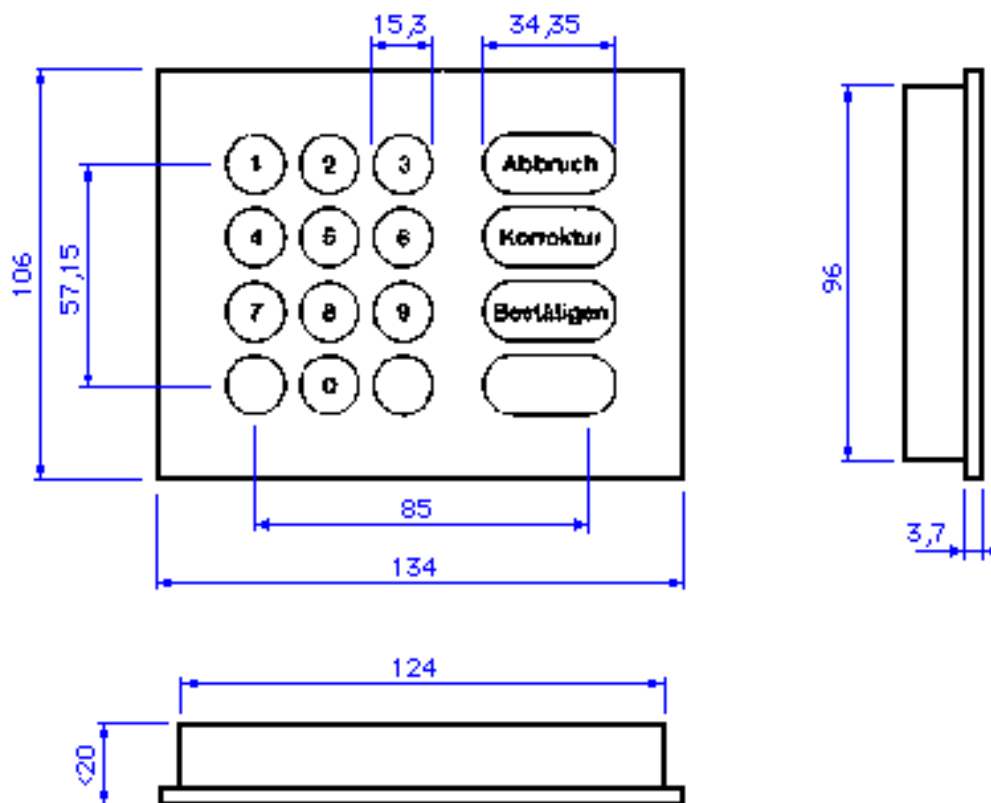

Special characteristics:

- A pleasant tactile feeling is achieved by the use of short travel keys.
- The smooth surface guarantees an easy cleaning. An adjustment of special type faces and sizes is possible.
- The layout is abrasion and chemical resistant.
- On demand all keyboards can be re-designed to adapt to user requirements.

The interface can be either matrix or [PS/2](#).

Applications:

- Kiosks
- Control panels
- Information and communication terminals
- This keyboard can optionally be used together with the KVS-63 series of keyboards.

Specification

Mechanical data

Dimensions:	134 x 106 x 20 mm
Weight:	0,45 kg
Housing:	High-Grade Steel
Degree of Protection:	IP65

Keys

Key Technology:	short travel key
Number of Keys:	16
Keyboard Layout:	numpad
Operational Life:	3 mio. keystrokes
Actuation Force:	3 N
Stroke Travel:	0,8 mm
Key Legend:	

Electric Data

Interface:	Matrix
Operating Voltage:	5 V
Operating Current:	100 mA

Temperature

Operating Temperature:	from 0 °C to 50 °C
Storage Temperature:	from -25 °C to 50 °C
Humidity:	95%
