

KVS-66 Web-Keyboard as Front Panel Mounted Version

Vandal resistant stainless steel keyboard as back panel mounted version with trackball.

Description

This stainless steel keyboard offers substantial advantages to many other metal keyboards.

This keyboard was [Designed](#) for uses such as in modern point-of-information terminals.

Special features:

This vandal resistant keyboard has steel keys with a travel of 3 mm that stand out of the frontplate. This makes this keyboard as simple to use as a standard PC-keyboard.

The keys are laser engraved and cannot be pulled out.

The keyboard including the trackerball is protected against the ingress of dust and water ([IP65/NEMA4](#) front) and is therefore also suited for outdoor use.

The keyboard can be supplied in German, as well as in other language layouts. Please contact us to enquire the availability of your desired layout. Customer-specific layouts can be produced as well.

Specification**Printer****Mechanical data**

Housing:	Front-panel mounted with integrated studs
Dimensions:	426,5 x 145 x 44 mm
