

**KVS-71**

Compact vandal resistant keyboard with raised keys that fit into many standard terminal enclosures.

**Description****Applications:**

This vandal-resistant, stainless steel keyboard was designed to fit perfectly into existing standard terminal enclosures. Therefore it can be used in any standard Terminal application.

**Characteristics:**

- IP65/NEMA4 water and dust proof
- The layout of the keyboard was designed for internet specific use. Therefore the user does not have access to system-specific keys such as Control, Alt or Delete.
- The keys are laser-engraved and therefore resistant to wear.

This keyboard is currently available in German only. Other "standard" Layouts are available at no extra cost on demand. Changes as to the positioning or re-mapping of the keys is possible at reasonable costs.
