

KVS-E90 Elegant Stainless-Steel Desktop Keyboard

Now available with removable 38-mm Trackball in Plastic or Stainless-Steel.

Description

The proven concept of the robust and reliable stainless steel keyboard family is now available in a desktop version with integrated [Trackball](#).

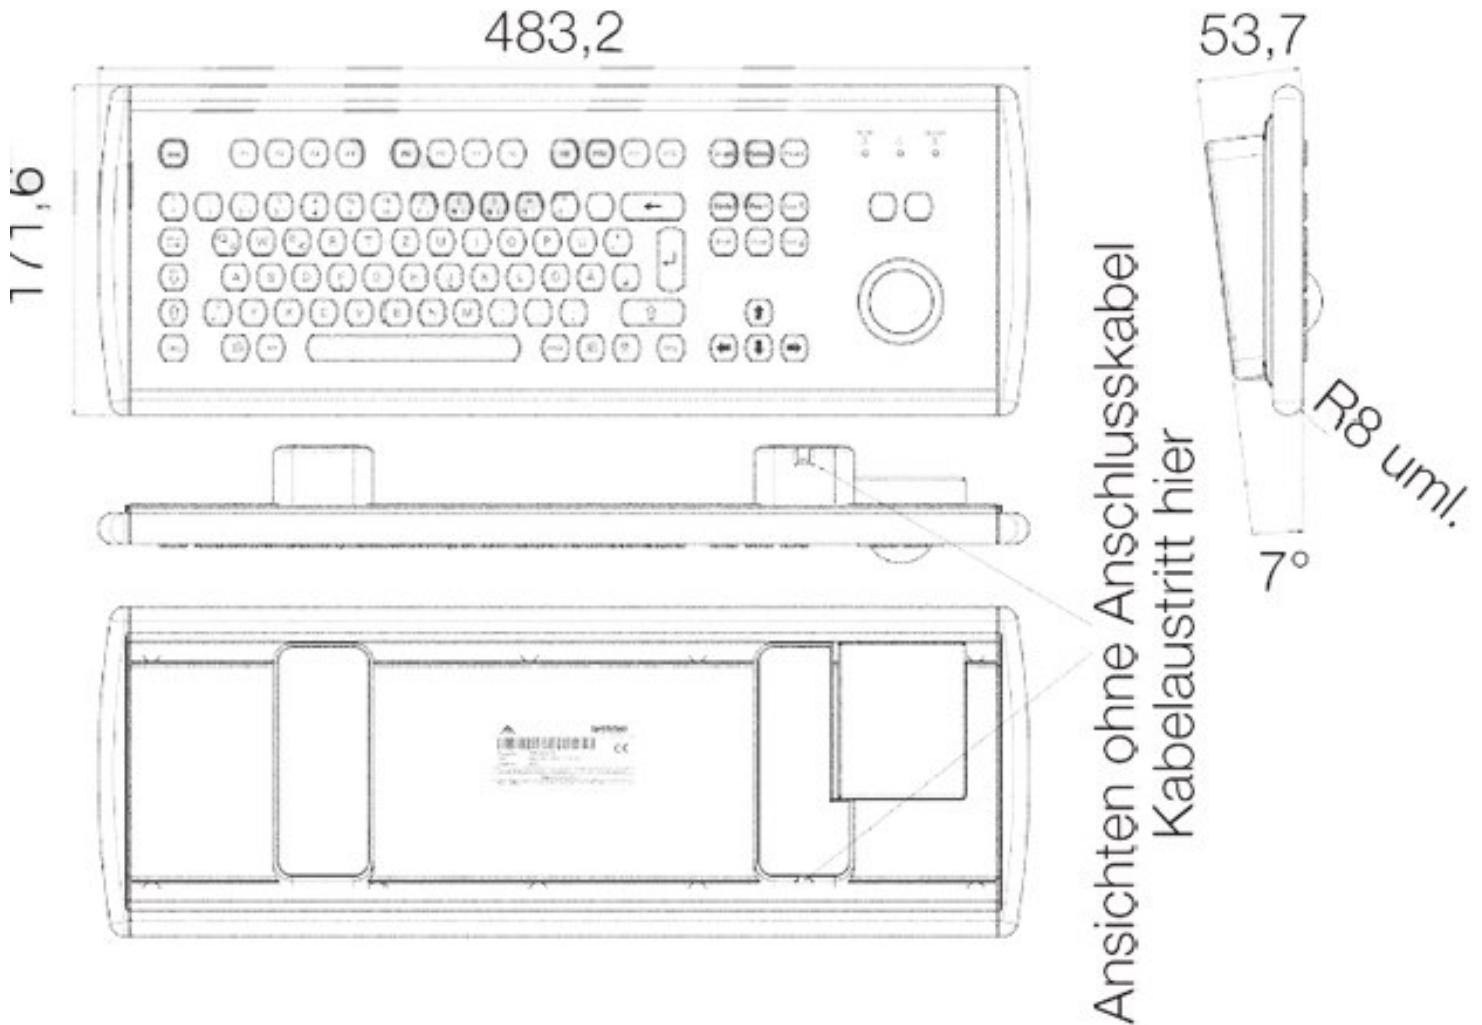

The robust construction makes it suitable for applications ranging from automation tasks to points of information terminals or as design objects at trade fairs, exhibitions as well as in the office. The highlight: customized coloured end caps provide an individual flair.

Quality data input is signalled by the pleasant tactile feedback offered by the stainless-steel keys.

Features

- Desktop keyboard with 88 keys and two separate mouse buttons at the top of the trackball.
- Long-travel keys and ergonomic design offer a long-time, comfortable data input.
- Keyboards with removable trackball module are available.
-
- Customized colour options for individual design.
- MF2-Layout comparable with a standard keyboard.
- 38 mm trackball in IP65 (static)
- Trackball as plastic or stainless-steel version available
- Protection class IP65, especially for automation, infoterminals or applications in hygienic environments
- With [PS/2](#) or [USB](#) port

Ausführung mit Trackball
