KWD-102 Front-Panel

Water and dust proof long-travel keyboard as 6HE front panel.

Description

Applications:

The front-panel version KWD-102 is meant for application in 19" panels.

Because of the waterproof housing (IP65) this keyboard is particularly well suitable for rough applications in industry.

Further features:

- A finger mouse can be integrated into the cursor-up key, which makes an additional mouse unnecessary.
- The 2-color moulded key caps are resistant to friction as the inscriptions cannot wear off.
- In order to avoid soiling of the key gaps we recommend the protective plastic film.
- The keyboard is AT / DIN5 compatible. PS/2 is available on demand.
- The keyboard can be costomer-specifically adapted and is available with other country layouts on demand.

The keyboards are even XT compatible. Please specify when ordering.

Specification

Mechanical data

Dimensions:	483 x 265,9 x 47 mm
Housing:	Metal & Plastic
Degree of Protection:	IP65

Keys

Number of Keys:	102
Keyboard Layout:	MF2-German
