

KWG-19 Compact Keyboard Drawer 19" 2HE

The 2U drawer is designed for 19" rack mount systems with an installation depth of at least 150 mm.

Description

This flat, retractable keyboard drawer KWG-19 is especially designed for 19" rack mount systems and for control consoles with an installation depth of at least 150 mm.

- The patented locking system prevents the drawer from being closed unintentionally through integrated magnetic tracks on the front and back.
- The telescopic tracks and ball-bearing system provide for a smooth user experience.
- Especially useful in housings with a low installation depth.
- The drawer housing is manufactured from galvanized steel panels. The front panel is finished with a power coated aluminium.
- In a closed state, the magnet insures a front panel seal that meets IP65 specifications against fluids and dust particles.
- Ideal for the standard 19" industrial keyboard series G-84-4400 by Cherry.

Specification

Keyboard drawer 19", 2HE, without keyboard
