KWM-64 GoFlexKey - Compact and squishy Silicone Keyboard

Especially useful for PDAs (Personal Digital Assistant)

Description

This pocket-sized, flexible PDA Keyboard is especially for those people having to input data nearly anytime and anywhere, e.g. service technicians or sales force people. The practical carrying case is not bigger than a packet of cigarettes and is easy to fix at a bunch of keys.

This practical GoFlexKey comes with easy data entry for a wide variety of PDAs. Its compact format feels like a fullsize keyboard. The KWM-64 is waterresistant up to IP 65 and is absolutely affordable.

Specials

- Especially applicable for technical service jobs and for application needing a fast and flexible data input
- Sealed silicone design for dust-free, contaminant-free and water-resistant use
- Comes with it's own carrying case
- Tactile feedback similar to standard keyboard
- Light weight: 68 g
- Compact size: 250 x 85 x 4 mm
- Easy to install; comes with [USB](#) interface
