

ReallyCool - Silicone Keyboard for 19" housings in IP 67

Dust- and contaminant-free resistant
Keyboard especially for medical
purposes

Description

The ReallyCool is a water-resistant and contaminant proof keyboard. The sealed and rigid surface is ideal for industrial, marine and medical use, as well as other applications where moisture, cleaning and durability are a consideration. It comes in a compact 19-inch size.

Because the ReallyCool is also quieter than standard keyboards, they are great for applications where noise generated from 'key-clicks' is a problem. Each key integrated in the sealed and rigid surface offers a great tactile feedback.

Features

- Sealed silicone design for dust-free, contaminant-free and water-resistant use in DIN IP 67 (proved according to directive EN 60601)
- Cleans with a variety of disinfectants
- Tactile feedback similar to standard keyboards
- Quiet data input
- Full-size, compact keyboard for integration into 19" housings
- Optionally available with separate mouse device
- Comes with [USB](#) or [PS/2](#) interface

Please notice the below mentioned cleaning constructions.

Specification**Mechanical data**

Housing:	Rubber
Degree of Protection:	IP65
