

Touchpad IP65 Module

Waterproof Touchpad module for back panel mounting.

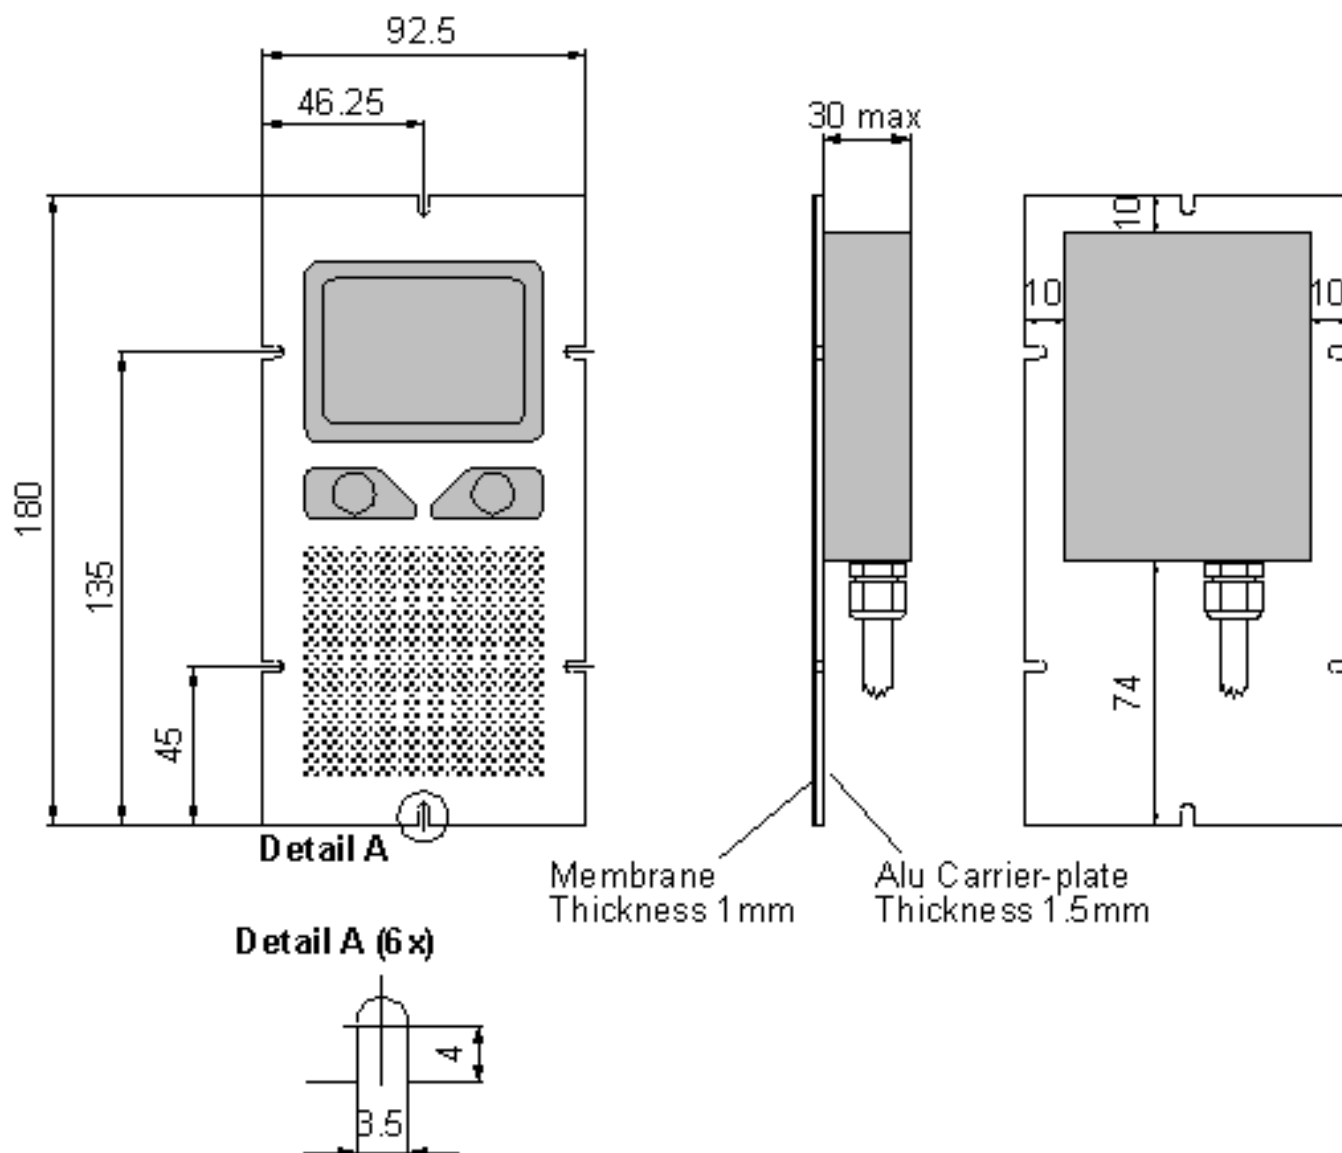

Description

- The KW-32 series is dust and water-protected and offers high reliability also in rough, dirty environments. The front panel version is mounted on an aluminum carrier plate and can easily and surely be installed into a small window. Ideal for industrial use.

Further features:

- With the "Field Distortion Technology" your finger slides on the [Touchpad](#) surface, in order to move the mouse pointer. Pressure is not necessary.
- Closed foil surface.
- Compatible with Microsoft and [PS/2](#)
-
-

Specification

Mechanical data
