

TW-34 Trackball Table Housing

Trackball (34 mm) in table top housing,
IP65 protection

Description

- If you cannot use an ordinary mouse because of dirt and dust the usage of a dust protected [Trackball](#) in the robust metal housing is advantageous.

This watertight table top device is equipped with trackball with a special bearing. This trackball can be operated in all installation positions because of its outstanding double-sided sealing.

The front side is covered by a foil.

The usual log forms can be selected by DIP switches.

The trackball can be operated linear or ballistically.
