

W30 Series Freely programmable Keyboard

Programmable keyboard, available either as mountable or as table-top version. Now available in black.

Description

- The W30 can be used in all areas, where a quick input of data is needed.

Characteristics

- The long travel keys and the good tactile feedback makes this keyboard very comfortable to use.
- The contacts and the electronic components are both water and dust proof.
- The software used to program the keyboard is simple to use and is included in the shipment.
- Easy to program with the included TEACH software.
- To adapt to the keyboard to the customer's needs, the single keys can be replaced by keys that cover either two or four keys. All keys can be labeled by inserting a label between the key itself and the clear plastic cap, that is supplied.
