

Y-see two Dual Monitor Adapter

Adapter for attaching 2 monitors to one computer.

Description

The Y-see two Dual Monitor Adapter boosts and splits the VGA or SVGA signal making the adapter the best way to connect two monitors to the same computer.

Applications

It is often useful to show the screen of a computer on two different displays. Some of the possible applications are:

- Great for computers requiring input from two locations, for example different sides of a desk or two adjacent rooms.
- Perfect for presentations. Allows one monitor to face the presenter and one to face the audience.
- Excellent for displays at tradeshow or in stores.
- Supports resolutions up to 1280 x 1024 in 32 bit color.
